The Venetian Crystal

The creations of Barovier&Toso are one-of-a-kind works in Venetian mouth blown crystal and handcrafted by master artisans in Murano, custodians of an age-old tradition passed down across the generations. Angelo Barovier invented a revolutionary formula that made it possible to obtain an unprecedented material with extraordinary characteristics of extreme transparency and brightness.

Founded in Florence in 1948, Le Porcellane has been enriched over time with new shapes and decorations both for home and lighting. Sinuous, essential shapes derived from a palpable passion for raw material, experimentation, and research. Decorations in 24-carat gold or in platinum that render each object precious and unique
